# ● FAN FORCED OVENS ●

The Magic of moving air in a Fan Forced Oven continually strips away thin layers of cold air from the outside of the food being cooked allowing the heat to penetrate quickly thus shortening the cooking time and enhancing the flavour.

## Specifications:

### Heavy duty PE Series electric ranges

- Oven height 355mm to take large roasts and baking dishes.
- Oven interior easy cleaning vitreous enamelled steel.
- Oven panels easily removable for cleaning.
- Electric elements, incoloy sheathed and fitted to the top and bottom of the oven.
  - \* Top elements for grilling, browning and finishing.
  - \* Bottom elements are for all dishes requiring gentle heat.
  - \* Combine the two for an even heat oven, ideal for roasting, baking and pastry work.
- Oven elements independently controlled.
- Supplied with heavy duty non tilt chrome plated shelves standard.
- Temperature setting 280°C
- Designed for optimum performance, efficiency, safety, cleanability and maintenance.

### Heavy duty PF Series gas ranges

- With the Performer Range you get precision control and efficient distribution of oven temperatures.
- Instant top heat whether open top, griddle or hot top sections are selected.
- Scientifically engineered construction will be found in all series of the Performer Range, single or double oven models, including the modular units required for your own particular type of operation.
- Top cooking trivets are cast iron with built in spillage bowls designed to give greater fuel economy (up to 20%) and complete pilot protection.
- Easily removable oven base, making cleaning a simple procedure.

OVEN SERIES	ADDITIONAL ELECTRICAL LOAD (ADD TO STANDARD MODELS)
508	100 Watts
711	100 Watts
1010	100 Watts

ALL GOLDSTEIN STATIC OVEN RANGES ARE AVAILABLE AS FAN FORCED UNITS
